

Optional Rules of Thirty30 Tennis

To further shorten matches an additional alternative to the Thirty30 (T30) scoring method is "**Thirty30+**" (**T30+**) where the "No Ad" Rule is used, (i.e. a deciding point is played at deuce), Service Receiver to decide 'deuce' or 'advantage' side, resulting in a maximum of three points per game.

Or optionally, during a game, after for example four deuces, a 'sudden-death' point may be played to decide the game - Service Receiver to choose 'deuce' or 'advantage' side.

This ensures a maximum number of points played during any one game is only 9 points.

The score of "deuce 1", "deuce 2", "deuce 3" and "deuce 4" are called out.
